

SAAS

SPONSOR AN AFRICAN SCHOLAR

KELVIN

Kelvin is 21 years of age, he is currently studying telecommunication, and he is hoping to finish his course in 2024. Kelvin is an ambitious young man who enjoys studying.

FAMILY BACKGROUND

He is the 3rd born in a family of 4 kids. That is composed of one girl and three boys. All the kids stay with both of their parents. Kelvin's dad is the only one who works. He is a part-time plumber, while his mother is a housewife.

They all stayed in a rented Swahili house that has 2rooms. It has electricity but no running water. His dad's monthly income is around 100 euros, which is divided into paying rent and also buying basic needs for the family.

With this low income, his dad can not afford to keep his children in school fully. Kelvin's siblings were lucky to have received support from the SAAS organization.

Kelvin is over to the moon ever since he also secured help from the SAAS organization. Now he can meet his dream of becoming a telecommunication engineer.

EDUCATIONAL BACKGROUND

Kelvin loves playing football and social activities like charity walks. His favourite subjects are mathematics and languages.

EMPOWERMENT THROUGH EDUCATION
