

ALVIN

Alvin is 17 years of age. He is a very hardworking young boy. He is currently in form 3 and will be completing her secondary level in 2025.

Alvin is the third child in a family of four: two girls and two boys. Alvin's parents are separated, and he stays with his mother and his younger sibling. The other two siblings stay with their father.

His mother works as a house helper for Nyali residents. In a good month, she earns 50 euros, which is spent on paying rent and setting food on the table, among other expenses.

Alvin is always in and out of school due to a lack of school fees. Currently, he is at home since his mother cannot pay his fees. He first joined school with the help of a loan his mother took from a Sacco group, which has yet to be paid.

Alvin is pleading for someone to come to his aid so that he can continue with his studies. He fears dropping out of school and ending up in bad company in the group.

Alvin and his family stay in the Kisauni Area in a single-room house that has electricity but no running water.

Alvin is a hard-working young man. His favourite subjects are Maths, Chemistry, and physics. In his free time, he enjoys playing football. He dreams of becoming a medical doctor.
