

SAAS

SPONSOR AN AFRICAN SCHOLAR

GRAHAM

Graham is 19 years of age. He finished his high school education in March 2021 and managed to score B plain. Graham is looking forward to join university this September.

FAMILY BACKGROUND

Graham is the 4th child in a family of 5 children that is composed of 2 boys and three girls. Graham's younger brother is in free primary school, while his elder siblings dropped out of school because of a school fees problem. They are currently doing casual jobs to make ends meet in their family. Graham's dad works as a security guard with a low income, while his mum is a housewife. Monthly his dad makes 30e which he uses to feed his large family.

Due to this low income, his dad can not afford to keep him in school fully. Thanks to the SAAS organization, Graham was able to secure sponsorship throughout his high school. He is also glad that this sponsorship will be extended to University.

Graham appreciates much the help that he got from SAAS organization as he can now meet his dream of becoming an IT expert.

They all stay in a one room Swahili house which has neither electricity nor running water.

EDUCATIONAL BACKGROUND

Graham enjoys sciences subjects as he has high hopes of becoming a medical doctor. He loves playing ball games during his free time.
