SPONSOR AN AFRICAN SCHOLAR

## **HAPPINESS**

Happiness is a full-time border and a Form 2 student. She will be finishing high school in 2024. Happiness is an ambitious young lady whose future ambition is to become a neurosurgeon.

## **FAMILY BACKGROUND**

Happiness is 14 years old. She is the 2nd born in a family of 3 children. They all stay with both parents in a rented double-room house. Their house has electricity but no running water.

Happiness's family depends on her uncle to support them with their daily meals. It is because Happiness parents lost their jobs due to Covid. Her dad used to work as chief, while her mother used to work as an office messenger.

Her uncle can not support them fully since he has his own family to attend to.

We feel that, if given the chance happiness will meet her goal of becoming a neurosurgeon. She is a very hardworking young lady. She achieved excellent marks on her last report card.

## **EDUCATIONAL BACKGROUND**

Happiness likes science and mathematics subjects. During her free time, she enjoys singing and dancing.
