

GRAHAM

Graham is 19 years of age. He is currently in his 2nd year semester 1 at Chuka university. He is undertaking a degree in Computer Science.

FAMILY BACKGROUND

Graham is the 4th child in a family of 5 children that is composed of 2 boys and three girls. Graham's younger brother is in free primary school, while his elder siblings dropped out of school because of a school fees problem. They are currently doing casual jobs to make ends meet in their family. Graham's dad works as a security guard with a low income, while her mum is a housewife. Monthly his dad makes 30e which he uses to feed his large family.

Due to this low income, his dad can not afford to keep him in school fully. Thanks to the SAAS organization, Graham was able to secure sponsorship throughout his high school. He is also glad that you will take him through college since his donor could not extend his help to college.

Graham appreciates much the help that he will be getting from you and also from SAAS in general. He feels that he can now meet his dream of becoming an It expert.

They all stay in one room Swahili house which has neither electricity nor running water.

EDUCATIONAL BACKGROUND

Graham enjoys science subjects as he has high hopes of becoming a computer engineer. He loves playing ball games during his free time.
