SPONSOR AN AFRICAN SCHOLAR

## **GEORGE**

George is in Form 4. He will be completing his secondary school education in November 2024.

George is the 5th born in his family. The family consists of 5 girls and seven boys. He has both parents who are in the village doing farm work. His elder siblings are married and have their own families. George stays with a relative in the town centre because his school is there. According to George, he says that living with relatives is not smooth. He tolerates a lot of hardship with them since he knows he is there because of his education. Most of the time, George is sent home to collect fees that can't be found. He also reports being late to school because he has to walk a long way.

George, hopeful for a sponsor, expresses his deep desire to focus on his studies and attend boarding school. He is grateful for any potential support, which he sees as a stepping stone towards his dream of becoming a medical doctor.

George, a diligent student in form 4, harbors a lofty ambition-to become a medical doctor. His academic prowess is evident in his favourite subjects, Physics and Mathematics.

In his free time, he indulges in his passion for football. His dedication and potential are clear, and with the right support, he could excel in his chosen field.

**EMPOWERMENT THROUGH EDUCATION**
