

SAAS

SPONSOR AN AFRICAN SCHOLAR

SILA

Sila is 22 years of age. Thanks to SAAS, Sila was able to attend high school and he is currently at university, studying bachelors in commerce. He is in 3rd year semester 1 and he will graduate in 2023.

FAMILY BACKGROUND

Sila is the firstborn in a family of three siblings. He lives with his mother and his stepfather who is an alcoholic. His stepdad is an irresponsible man who does not care for his family.

Sila's mum is the sole provider in her family; she does so by doing odd jobs like doing laundry for the neighbours. On a weekly basis, Silas's mum manages to get a minim of 2euro which she spends on buying food for her family and also saving some in order to pay her rent

Sila and his family appreciate the SAAS organization for their support of his education. His mum said if it were not for SAAS, Sila would have remained with only primary education which is free and mandatory in Kenya.

Sila feels that the donor from SAAS gave him the opportunity to find himself and help himself education-wise. This will help him secure a good job hence saving his mother from the hardship he is in,

They all live in a single room that has neither electricity nor running water and the house is situated in a slum area called Kongowea.

EDUCATIONAL PROGRESS

Sila likes athletics and he enjoys studying mathematics, social studies, and biology. He would one day wish to become a teacher.

EMPOWERMENT THROUGH EDUCATION
